

UNIVERSITY DEPARTMENT OF HOME SCIENCE
LALIT NARAYAN MITHILA UNIVERSITY
KAMESHWARNAGAR, DARBHANGA

1.1.3 Number of Courses/Paper having focus on Employability/Entrepreneurship/Skill development in the Curriculum.

Name of the Program: M.A. (HOME SCIENCE)

Sl. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
1	Advanced Nutrition	Energy Metabolism CC-01 Unit-1	The course explain energy metabolism, energy requirement for individual (working or non working man and woman), measurement and affecting factor, use, need and importance of energy. Get an insight into various metabolic pathways.	2020
		Protein CC-01 Unit-2	The course describes the concept of protein structure, function, use; explain the structure and function of DNA, RNA, Plasma Protein.	2020
		Lipids CC-01 Unit-3	The course describes the Lipids classification function & its nutritional significance of lipids, Biosynthesis of Cholesterol.	2020
		Carbohydrates CC-01 Unit-4	The course explains the structure, function of saccharides, use and equipments of carbohydrates, and know the role of hormones in growth, maintenance and regulation of body processes.	2020
		Micronutrients CC-01 Unit-5	The course describes the classification, role of vitamins and minerals. Effect and use of micronutrients. Importance of micro minerals.	2020

KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
2	Advanced Study of Human Development	Introduction to Development CC-02 Unit-1	The course describes the overview of development from prenatal stage to preadolescence stage stages and principles of growth and development, role of environment and heredity.	2020
		Prenatal Development CC-02 Unit-2	The course describes the prenatal Development of every stage, common disorder during pregnancy and birth process.	2020
		Infancy (0-2 years) CC-02 Unit -3	The course explains the 0-2year infant behaviour, health and evaluation.	2020
		Early Childhood (2-6 years) CC-02 Unit-4	The course explains the all types of Development in early childhood (2-6year). Develop an awareness of important aspects of all development stages during this phase.	2020
		Later Childhood (6-12 years) CC-02 Unit-5	The course describe the late childhood (6-12 year) develop an awareness of important aspects of all development stages during this phase.	2020
3	Concept of Home Management	Concept of Home Management CC-03 Unit-1	<p>The course explains the concept related to family resource management.</p> <p>It highlights the significance of management process in efficient use of resources.</p>	2020

KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
		Management Process CC-03 Unit-2	it imparts the skills of efficient management of available resources. It prepares the students for organising events.	2020
		Ergonomics CC-03 Unit-3	It focuses on management of human energy as a family resource. It imparts knowledge regarding good work practices to perform the work effectively and reduce discomforts while performing domestic and other occupations.	2020
		Time and Energy Management CC-03 Unit-4	Understanding the importance of time and energy and ways to manage them effectively for performing the work effectively.	2020
		Work Simplification CC-03 Unit-5	Understanding the importance of time and energy and ways and suggests the ways for simplifying the work.	2020
4	Research Methodology & Statistics	Fundamentals of Research CC-04 Unit-1	Develop a scientific approach and know the processes of research. The competence for selecting method and tools appropriate for research topics. Understand concepts of statistical methods.	2020

UNIVERSITY DEPARTMENT OF HOME SCIENCE
LALIT NARAYAN MITHILA UNIVERSITY
KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
		Stages/steps involved in research process CC-04 Unit-2	Understand a scientific approach and know the different steps of research.	2020
		Sample and sampling techniques CC-04 Unit-3	Understand concepts of different types of sampling techniques.	2020
		Research Tools CC-04 Unit-4	Understand concepts of different types of Research Tools.	2020
		Concept of Data CC-04 Unit-5	Understand concepts of different types of statistical methods.	2020
5	Therapeutic Nutrition	CC-05 Unit-1	Create awareness related to nutrition & its importance in various body conditions.	2020
		CC-05 Unit-2	Helps in understanding the disease condition and effective management of infectious diseases.	2020
		CC-05 Unit-3	Helps in understanding the nutrition related diseases. Helps in understanding the effect of food on internal body organs.	2020

KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
		CC-05 Unit-4	It generates knowledge related to metabolic disorders and suggests ways for preventing its occurrence.	2020
		CC-05 Unit-5	It practically makes the learner to understand the concept of dietary counselling. It prepares the students to perform dietary counselling for various health conditions.	2020
6	Maternal and Infant Nutrition	CC-06 Unit-1	The course explains understand physiological changes during pregnancy, nutritional effect on mother - child health, nutrition requirement during pregnancy, stage of fetal growth.	2020
		CC-06 Unit-2	The course explains understand physiological changes during lactation. Role of Hormones, Milk composition, importance of Breast feeding.	2020
		CC-06 Unit-3	The course describe get acquainted with: growth and development changes from conception till birth.	2020
		CC-06 Unit-4	The course explain after pregnancy nutritional requirement and sign and symptoms of menopause.	2020
		CC-06 Unit-5	The course explains I Understand the inter relationship between nutrition and growth and development during a life cycle, policies and programmes for mother and child health.	2020

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
8	Communication Technology	Concept of Communication CC-08 Unit-1	Develop understanding regarding various aspects of communication. Develop understanding regarding various audio-visual aids used for various groups: individual, group, mass. Develop ability to prepare, operate use of audio-visual aids.	2020
		Forms of communication CC-08 Unit-2	Develop understanding regarding various types of communication.	2020
		Types of Media CC-08 Unit-3	Develop understanding regarding various audio-visual aids used for various groups: individual, group, mass.	2020
		Adoption & Diffusion CC-08 Unit-4	Develop understanding regarding concept of Adoption & Diffusion Process.	2020
		Introduction to Information Communication CC-08 Unit-5	Develop understanding regarding various types of communication & Role of ICT in development.	2020
9	Women's Studies	CC-09 Unit-1	The course explains women in India civilization in every edges and period.	2020

UNIVERSITY DEPARTMENT OF HOME SCIENCE
LALIT NARAYAN MITHILA UNIVERSITY
KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
		CC-09 Unit-2	The course explains the woman education, sources and growth.	2020
		Personal and Civil Laws related to women CC-09 Unit-3	The course describes the crime against Woman, Women Exploitation in India & difficulty related to female child.	2020
		Personal and Civil Laws related to women CC-09 Unit-4	The course explains the personal and civil laws related to woman Exploitation Act and IPC.	2020
		CC-09 Unit-5	The course explains women empowerment programmes.	2020
10	Food Processing	CC-10 Unit-1	The course describe related to food spoilage, role of micro-organisms, use of importance of food preservation.	2020
		CC-10 Unit-2	The course explains food processing, methods and importance of food preservation. Gain basic knowledge about food processing and technology.	2020
		CC-10 Unit-3	The course explains the basic principal of food product development, importance of food packaging, evaluation of food testing, techniques of packaging, fermentation technology.	2020

KAMESHWARNAGAR, DARBHANGA

SI. No.	Name of the Course/Paper	Course/Paper code	Activities/Courses with Direct bearing on Employability/Entrepreneurship/Skill Development	Year of Introduction
		CC-10 Unit-4	The course explains the steps of packaging technique, nutritional value of food, principle and importance of labelling.	2020
		CC-10 Unit-5	The course explains the understand food standard and related laws, flavouring agents antioxidants, emulsifying agents.	2020
11	Food Science and Experimental Food	Introduction to Food Science CC-11 Unit-1	The course explains the acquire knowledge regarding food groups/science and properties.	2020
		Carbohydrates in Foods CC-11 Unit-2	The course describes carbohydrates processed food product use in cooking.	2020
		Protein Cookery CC-11 Unit-3	The course explain gain knowledge regarding cooking methods applied for specific food items protein food product, effect of heat on available protein food item and it's nutritional value.	2020
		Vegetables and Fruits CC-11 Unit-4	The course explains cooking and nutritional value of vegetables and fruits, preservation and effect of heat on vegetables and fruits.	2020
		Nuts, Oilseeds and Beverages CC-11 Unit-5	The course explains uses of oilseeds, nuts in cookery, gain knowledge, different types of alcoholic and non-alcoholic beverages.	2020

Sri. Sanyiv Kumar
OSI (Universities)
Raj Bhawan, Patna

Sub: Implementation of Choice Based Credit System

Sir,

With reference to your letter No. BSU (Regulation)-
20/2018-1510/GS(I), dt. 05.06.2018, a meeting of the
panel of experts in Home Science was held today
(13.06.2018) at 10.30 am to finalise the CBCS curriculum
in Home Science.

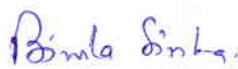

We went through the syllabus provided to us. We
found that the syllabus was in order. However,
two additional sheets added as cover pages.

We recommend that it may be placed before
the authorised body.

Yours sincerely,

13.06.2018

Core Course (CC):

A course which should compulsorily be studied by a candidate as a core requirement on the basis of subject of MA studies and is termed as a Core course.

Elective Course (EC):

Generally a course which can be chosen from a pool of courses (Basket) and which may be very specific or specialized or advanced or supportive to the subject/discipline of study or which provides an extended scope or which enables an exposure to some other subject/discipline/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

Discipline Specific Elective Course (DSE):

Elective courses may be offered by the main discipline/subject of study is referred to as **Discipline Specific Elective**. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).

Generic Elective (GE) Course:

An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a **Generic Elective**.

P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and *vice versa* and such electives may also be referred to as Generic Elective.

Ability Enhancement Courses (AEC):

The Ability Enhancement Courses (AEC) / Skill Enhancement Courses (SEC). "AEC" courses are the courses based upon the content that leads to life skill enhancement.

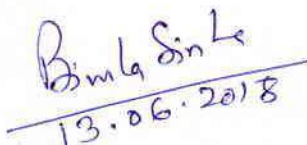

Ability Enhancement Compulsory Courses (AECC): (Qualifying and Non-CGPA course):

University will run a number of **Ability Enhancement Compulsory Courses (AECC)** which is qualifying in nature and student from all faculties have to qualify in all courses.

Dissertation/Project/ Internship/ Industrial Training:

An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher / faculty member is called dissertation/project.

07/05/18

Department of Home Science Patna University, Patna

A meeting regarding revision of curriculum under Choice Based Credit System for Post Graduate course in Home Science was held today i.e. 07.05.2018 (Monday) at 10.30 a.m. in the Post Graduate Department of Home Science, Patna University under the chairmanship of Dr. Anju Srivastava, Head, Post Graduate Department of Home Science, Patna University.

The following members were present in the meeting:

S. No.	Members of the Syllabus Committee - Name & Address	Signature
01	Dr. Anju Srivastava Head, PG Department of Home Science Patna University, Patna	<i>Anju Srivastava</i> 07.05.2018
02	Prof. (Dr.) Renu Kumari Head, PG Department of Home Science B.R.A. Bihar University, Muzaffarpur	<i>Renu Kumari</i> 7/8/2018
03	Dr. Manju Kumari Sinha Head, PG Department of Home Science J.P. University, Chapra	<i>Manju Kumari Sinha</i> 07.05.2018
04	Dr. Nirmala Jha Head, PG Department of Home Science L.N.M.U. Darbhanga	<i>Nirmala Jha</i> 07.05.2018
05	Dr. Anju Singh Head, PG Department of Home Science T.M.B.U., Bhagalpur	<i>Anju Singh</i> 07-05-2018
06	Dr. Vijay Lakshmi Head, PG Department of Home Science V.K.S.U, Ara	<i>V. Lakshmi</i> 07.05.2018

The members of the Syllabus Committee, after thorough discussion, approved the attached revised curriculum for Post Graduate course in Home Science under Choice Based Credit System.

Proposed Syllabus for M.A. in Home Science

Semester	Core Course (CC)	Elective Course (EC)	Discipline Specific Elective Course (DSE)	Generic Course (GE)	Ability Enhancement Course (AEC)	Ability Enhancement Compulsory Course (AECC)
1	CC - 1 Advanced Nutrition					AECC - 1 Environmental Sustainability & Swachh Bharat Abhiyan Activities
	CC - 2 Child Development: Prenatal to Preadolescence					
	CC - 3 Concept of Home Management					
	CC - 4 Research Methodology and Statistics					
2	CC - 5 Therapeutic Nutrition (DSE for other departments)				AEC - 1 Computers & IT Skill	
	CC - 6 Maternal and Infant Nutrition					
	CC - 7 Management of Textile Crafts and Apparel Industry					
	CC - 8 Communication Technology					
	CC - 9 Women's Studies					
3	CC - 10 Food Processing					AECC - 2 Human Values & Professional Ethics & Gender Sensitization
	CC-11 Food Science and Experimental Food					
	CC - 12 Institutional Food Management					
	CC - 13 Community Nutrition					
	CC - 14 Practical					
4	EC - 1 Practical Approach to Writing Research Activities			GE - 1 Human Rights		
	EC - 2 Internship/Dissertation/ Project/Seminar

Semester – I

Core Course 1:

Advanced Nutrition

05 Credits

Full Marks: 70

Time: 3 Hours

The pattern of question papers will be as under

Group A- Compulsory – ten questions (two questions from each unit) of two marks each.

$2 \times 10 = 20$ marks

Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.

$5 \times 4 = 20$ marks

Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.

$10 \times 3 = 20$ marks

Objectives:

This course will enable the students to:

- ☐ Understand the impact of nutrients on human body
- ☐ Get an insight into various metabolic pathways
- ☐ Know the role of hormones in growth, maintenance and regulation of body processes

Unit I

Energy Metabolism

- ☐ Determination of energy value of food- Bomb calorimeter
- ☐ Basal metabolic rate- Measurement and factors affecting basal metabolic rate
- ☐ Measurement of energy requirement of an individual with reference to man and women

Unit II

Proteins

- ☐ Classification of protein & amino acids
- ☐ Structure, properties and functions of protein
- ☐ Metabolism of proteins, protein synthesis
- ☐ Assessment of protein quality
- ☐ Plasma proteins
- ☐ Structure and Functions of DNA and RNA

Unit III

Lipids

- ☐ Classification of Lipids
- ☐ Structure, properties and functions of Lipids
- ☐ Metabolism and nutritional significance of lipids
- ☐ Biosynthesis of cholesterol and its functions

Unit IV

Carbohydrates

- ☐ Classification of carbohydrates
- ☐ Structure, properties and functions of carbohydrates
- ☐ Metabolism of carbohydrates
- ☐ Altered metabolism of carbohydrates in diabetics
- ☐ Glycemic index
- ☐ Role of hormones in carbohydrate metabolism (insulin, thyroid and adrenal cortex)

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

This course will enable the students to:

- ☐ To have an overview of development from prenatal stage to preadolescence stage
- ☐ To develop an awareness of important aspects of all development stages during this phase

Unit I**Introduction to Development**

- ☐ Stages and principles of growth and development
- ☐ Developmental tasks
- ☐ Individual differences
- ☐ Comparative role of heredity and environment
- ☐ Aspects of development

Unit II**Prenatal Development**

- ☐ Conception, stages of prenatal development
- ☐ Factors affecting prenatal development
- ☐ Common disorders during pregnancy
- ☐ Types and stages of birth process

Unit III**Infancy (0-2 years)**

- ☐ Neonate-Their characteristics and behavior patterns
- ☐ Evaluation and examination of health of neonate
- ☐ Formation of some healthy and good habits among Infants

Unit IV**Early Childhood (2-6 years)**

- ☐ Physical and motor development, common motor skills
- ☐ Social and Emotional development (characteristics and common Emotions)
- ☐ Cognitive development

Unit V**Late childhood (6-12 years)**

- ☐ Physical and motor development
- ☐ Personality development- characteristics
- ☐ Imagination and cognitive development
- Social relationship- peer, siblings and parents

Core Course 3:**Concept of Home Management****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.* $2 \times 10 = 20$ marks*Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.* $5 \times 4 = 20$ marks*Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.* $10 \times 3 = 20$ marks**Objectives:**

This course will enable the students:

- ☐ To understand the significance of management in the micro and macro organization
- ☐ To know the conceptual, human and scientific aspects of management functions
- ☐ To develop the ability to evaluate the managerial efficiency and effectiveness in the family and other organizations

Unit I**Management as a system**

- ☐ Definition
- ☐ Elements
- ☐ Types
- ☐ Application in family resource management

Unit II**Management process**

- ☐ Planning – objectives, principles, strategies, policies
- ☐ Organizing – purpose, process, delegation, authority, responsibility and accountability, staffing, purpose, recruitment, appraisal directing, leadership, motivation and communication
- ☐ Controlling and its tools
- ☐ Appraisal
- ☐ Evaluation

Unit III**Ergonomics**

- ☐ Definition
- ☐ Scope and nature of ergonomics in domestic and other occupations

Unit IV**Time and energy management**

Time and energy management in study of ergonomics

Unit V**Work simplification**

Work simplification process and time motion economy

Core Course 4:**Research Methodology and Statistics****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.* $2 \times 10 = 20$ marks*Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.* $5 \times 4 = 20$ marks*Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.* $10 \times 3 = 20$ marks**Objectives:**

This course will enable the students to:

- Develop a scientific approach and know the processes of research
- Develop the competence for selecting method and tools appropriate for research topics
- Understand concepts of statistical measures of central tendency, dispersion variability and probability

Unit I**Foundation of Scientific Research**

- Research – meaning and definition
- Need of research in Home Science
- Necessary consideration for selecting a research problem
- Sources for locating a research problem

Unit II

Stages/steps involved in research process

- Research problem
- Literature Review
- Hypothesis
- Variables
- Methodology: sample, sampling technique, tools and tests, statistical devices
- Pilot study
- Test administration and data collection
- Scientific generalization
- Preparing the research report

Unit III**Sample and Sampling techniques**

- Sample- Meaning, characteristics of a good/scientific sample
- Sampling techniques:
 - Probability sampling- Meaning and types
 - Non-probability sampling- Meaning and types

Unit IV**Research Tools**

- Observation
- Questionnaire
- Interview
- Case study

Unit V**Concept of data**

- a. Types of data – Primary data and secondary data
Qualitative and quantitative data
- b. Analysis of data – Qualitative and quantitative data analysis

Statistics**Unit I**

Meaning and characteristics of statistics, definition, importance, classification, tabulation, frequency curve, histogram and pie chart

Unit II

Measure of central tendency

- ☐ Mean – definition, merits, demerits and related programs
- ☐ Median – definition, merits, demerits and related program
- ☐ Mode – definition, merits, demerits and related program

Unit III

- ☐ Measure of dispersion- meaning and types of dispersion, range, quartile deviation, standard deviation related problems, characteristics of dispersion

Unit IV

Correlation – definition, methods of correlation, product moment (Pearson) and rank difference

Unit V

Normal probability curve- definition and characteristics of normal probability curve, definition, types of skewness and kurtosis

Semester - II

Core Course: 5

Therapeutic Nutrition

05 Credits

Full Marks: 70

Time: 3 Hours

The pattern of question papers will be as under

Group A- Compulsory – ten questions (two questions from each unit) of two marks each.

2 x 10 = 20 marks

Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.

5 x 4 = 20 marks

Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.

10 x 3 = 20 marks

Objectives:

This course will enable the students to:

- ☐ Understand the etiology, physiologic and metabolic anomalies of acute and chronic diseases and patient needs.
- ☐ Acquire basic knowledge about the effects of various diseases on nutritional status and dietary requirements.
- ☐ Be able to provide required nutritional care and treatment of the various diseases

Unit I

- ☐ Importance of nutrition in health and disease
- ☐ Importance of meal planning, factors to be considered while planning meal
- ☐ Dietary management in weight imbalance (obesity and underweight)

Unit II

Prevalence, etiology, biochemical and clinical manifestations and therapeutic measurement of the following:

- ☐ Typhoid fever
- ☐ Tuberculosis
- ☐ HIV infection and AIDS

Unit III

Prevalence, etiology, biochemical and clinical manifestations and therapeutic measurements of the following:

- ☐ Nutritional anemia
- ☐ Liver disorders: Jaundice, Hepatitis
- ☐ Diseases of the Cardio Vascular System
- ☐ Kidney diseases

Unit IV

Types, causes, symptoms and dietary management of metabolic disorders

- ☐ Diabetes Mellitus
- ☐ Gout
- ☐ Cancer

Unit V

Dietary counseling: Needs, objectives, steps and techniques

Practical

- Preparation of therapeutic diets - clear liquid diet, full fluid, soft and normal diet
- Plan and prepare diet for the diseases covered in theory and calculate the nutrients requirement
- Plan a day's meal and calculate nutrients requirement for following diseases:
 - Weight Imbalance
 - Fever
 - Liver disease
 - Cardio - vascular Disease (500mg and 1000mg sodium restricted diet)
 - Renal disorders
 - Metabolic disorder

Core Course 6**Maternal and Infant Nutrition****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten question s (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

This course will enable the students be

- ☐ Understand physiological changes during pregnancy and lactation.
- ☐ Get acquainted with growth and developmental changes from conception till birth.
- ☐ Understand the inter-relationship between nutrition and growth and development during a life cycle

Unit I

- ☐ Important of Maternal nutrition prior to and during pregnancy, Effect of under nutrition on mother-child health, including pregnancy
- ☐ Physiology and endocrinology of pregnancy and embryonic and fetal growth and development
- ☐ Nutritional requirement during pregnancy
- ☐ Complications of pregnancy and management and importance of antenatal care of at – risk mothers
- ☐ Congenital malformation, fetal alcohol syndrome and gestational diabetes mellitus

Unit II

- ☐ Lactation
- ☐ Development of mammary tissue and role of hormones
- ☐ Human milk composition and factors affecting breast feeding and fertility
- ☐ Management of lactation –breast feeding, Rooming in problems – sore nipples, engorged breast, inverted nipples etc.

Unit III

- ☐ Care and management of the preterm and LBW infants
- ☐ Implications for feeding and management

Unit IV

- ☐ Menopause
- ☐ Sign and symptoms
- ☐ Problems
- ☐ Management of dietary needs and health

Unit V

- ☐ Policies and programmes for promotion maternal and child nutrition and health

- Develop understanding regarding various aspects of communication.
- Develop understanding regarding various audio-visual aids used for various groups: individual, group, mass.
- Develop ability to prepare, operate use of various audio-visual aids.

Unit I**Concept of Communication**

- Definition, meaning and nature of communication
- Process, elements and models of communication
- Barriers in communication

Unit II**Forms of Communication**

- Verbal and non-verbal
- Intra, inter, group, mass

Unit III**Mass Media**

- Types, roles and characteristics
- Uses of – Electronic and traditional media

Unit IV**Adoption and Diffusion**

- Concept of adoption
- Innovation and diffusion
- The Adoption process
- The Innovation –Decision process
- Adopter categories

Unit V**Introduction to Information Communication Technology (ICT)**

- Satellite broadcasting, electronic media and computer Technology
- Role of ICT in Extension work and development

Core Course 8:**Women's Studies****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

- ☐ To develop awareness regarding status of women in India and sensitivity of women's issues and concerns
- ☐ To enable women to become champions/ well equipped in the changing society
- ☐ To empower women in their struggle against inequality and gender bias
- ☐ To become aware of the comprehensive and balanced understanding of social reality

Unit I

- ☐ Women in India Civilization down the ages, Status of Women in ancient India-Vedic age, Pauranic Period, Mauryan Period, Gupta, Medieval, Feudal Period, Buddhist Period, British Period, Women in Post-independence period

Unit II

- ☐ Relevance of Women's Studies
- ☐ Sources and growth of Women's Studies

Unit III**Issues related to Crime against Women in India**

- ☐ Child marriage
- ☐ Female feticide
- ☐ Dowry
- ☐ Sati
- ☐ Honor killing
- ☐ Rape and Sex abuse
- ☐ Trafficking
- ☐ Domestic Violence

Unit IV**Personal and Civil Laws related to Women**

- ☐ Dowry prohibition Act
- ☐ Divorce and maintenance Law
- ☐ Marriage Registration Act
- ☐ Domestic Violence Act 2005
- ☐ Pre-Natal Diagnostic Act
- ☐ Laws against feticides
- ☐ Medical Termination of Pregnancy (MTP) Act, 1971
- ☐ Immoral Traffic Prevention Act
- ☐ Indecent Representation of Women (Prohibition) Act 1986
- ☐ Law against Sexual Harassment at workplace

Core Course: 9 Management of Textile Crafts and Apparel industry**5 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

This course will enable the students:

- ☐ To understand the textile crafts of India
- ☐ To enhance awareness regarding the history and production centers of the traditional textile crafts of India
- ☐ To understand the aspects of management regarding designing, merchandising and mass media
- ☐ To highlight certain aspects of apparel industry
- ☐ To signify the role of traditional textile crafts in economic empowerment

Unit I**Study of Textile Crafts of India: history, production centers, techniques, designs, colors and products**

- ☐ Woven textile of India- Banaras Brocades, Jandanis and Baluchars of Bengal, Kani Shawls of Kashmir
- ☐ Embroidered textiles of India- Kantha of Bengal, Kasuti of Karnataka, Phulkari of Punjab, Chickankari of Uttar Pradesh, Kashida of Kashmir
- ☐ Painted and Printed textiles of India- Kalamkari of Andhra Pradesh, Dabu printing of Rajasthan, Ajarakh prints of Gujrat
- ☐ Dyed textiles of India- Bandhanis of Rajasthan and Gujrat, Ikats-Patola of Gujrat, Bandhas of Orissa, Pochampalli of Andhra Pradesh

Unit II**Elements used in creating a design**

- ☐ Color- Color harmony, its sensitivity and composition in dress
Motif development-Geographical, simplified, naturalized, stylized, abstract and
- ☐ ornamental
- ☐ Components of fashion- Silhouette, details, color, fabric, texture

Unit III**Principles of Merchandising**

- ☐ Types of merchandising
- ☐ Role of retailing in merchandising
- ☐ Visual Merchandising- Plan & Schedules, Types of display, Elements of display

Unit IV**Role of Mass Media in Fashion**

- ☐ Role of Mass Media in promoting fashion
- ☐ Impact of Mass Media on fashion

Semester - III

Core Course 10:

Food Processing

05 Credits

Full Marks: 70

Time: 3 Hours

The pattern of question papers will be as under

Group A- Compulsory – ten questions (two questions from each unit) of two marks each.

$2 \times 10 = 20$ marks

Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.

$5 \times 4 = 20$ marks

Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.

$10 \times 3 = 20$ marks

Objectives:

This course will enable the students be

- ☐ Acquire necessary knowledge of basic principles and procedures in the production of important food products
- ☐ Gain basic knowledge about food processing and technology.
- ☐ Understand food standard and related laws

Unit I

- ☐ Food spoilage, role of microorganisms, food borne hazards of microbial origin

Unit II

Food preservation – principles & methods

Physical principles in undertaking food processing operation including thermal processing, ionizing radiation, refrigeration freezing and dehydration, Mineral processing

Unit III

Basic principles at food product developments need and types of food

Extruded foods- merit, demerits and use of Extruded foods

Organic Foods, Processing and packaging of Organic Foods and programme for production

Product evaluation techniques censoring evaluation and product testing

Fermentation technology – fermentation, enrichment and fortification

Unit IV

Packaging technique – packaging materials, types of packaging effects of packaging on nutritive value of foods, latest trends in packaging

Food labeling – definition, principles of labeling, nutrition labeling – research and testing

Unit V

Food standards and laws

Food additives, food color, flavoring agents, preservative, and antioxidants, emulsifying agents, and stabilizing agents

Core Course 11: Food Science and Experimental Food**05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

- ☐ To acquire knowledge regarding food groups
- ☐ To gain knowledge regarding cooking methods applied for specific food items

Unit I**Introduction to food science:**

- ☐ Aims and objectives of the study of food science
- ☐ Food acceptability by variation in color, flavor and texture
- ☐ Physiochemical properties of food

Unit II**Carbohydrates in foods**

- ☐ Sugar – Sources, properties and uses, stages of sugar cookery
- ☐ Starch – Sources, properties and uses, processed cereal products

Unit III**Protein cookery**

- ☐ Pulses – composition, methods of cooking, germination and fermentation
- ☐ Meat – structure, common types, changes occurring during cooking of meat
- ☐ Fish – types, characteristics of fresh fish, cooking and preservation
- ☐ Egg – structure, methods of cooking, uses of egg in different preparations
- ☐ Milk – composition, effect of heat on milk, uses in cookery

Unit IV**Vegetables and fruits**

- ☐ Classification, composition, color/pigments, effects of cooking on vegetables
- ☐ Classification, composition, effect of heat and methods of preservation

Unit V**Nuts, oilseeds and beverages**

- ☐ Nuts and oilseeds – composition and uses in cookery
- ☐ Beverages and appetizers- coffee, tea, fruit beverages and alcoholic beverages, milk based beverages, carbonated, non-alcoholic beverages and alcoholic beverages

Core Course 12:**Institutional Food Management****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

This course is designed to:

- ☐ Provide practical field level experience in food administration
- ☐ Equip the students to have knowledge about various food service systems
- ☐ Impart knowledge of quantity cookery and quality control in food administration

Unit I**Introduction to Food Service**

- ☐ Food service system and their development
- ☐ An introduction to Food Service Industry

Unit II**Food Service System Planning and Management Planning**

- ☐ Strategies in planning
- ☐ Kitchen layout planning
- ☐ Pricing of product

Organization and Management

- ☐ Management Theories
- ☐ Tools of management
- ☐ Personnel management
- ☐ Organization and steps in organizing

Unit III**Food production**

- ☐ Menu planning
- ☐ Food purchase
- ☐ Cost control
- ☐ Quantity Food production
- ☐ Standardization of recipes

Service Management

- ☐ Delivery and service of foods in different systems

Unit IV

- ☐ Management of Social Institutes – family as an institutes, child care and geriatric institutions

Unit V**Food Hygiene and Sanitation**

- ☐ Sanitation and safety in food services

Core Course 13:**Community Nutrition****05 Credits**

Full Marks: 70

Time: 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Objectives:**

- ☐ Equip the community/ public to have knowledge about various nutritional problems and their prevention
- ☐ Understand the causes and consequences of nutrition problem in society
- ☐ Acquire basic knowledge about various approaches to nutrition and health programmes
- ☐ Gain basic knowledge about food consumed by the community
- ☐ To assess nutritional status of the community

Unit I

- ☐ Concept of Public Nutrition, relationship between health and nutrition
- ☐ Nutritional problems prevalent in India and measures to combat them
- ☐ Bone health problems and dietary management

Unit II

- ☐ Assessment of nutritional status
 - Direct – Anthropometric, clinical and
 - Biochemical Indirect – Vital Static diet survey

Unit III

- ☐ Nutrition Education – objectives, planning, evaluation of nutrition education programme
- Selection of effective nutrition education method

Unit IV

National and international agencies involved in women and child welfare

- ☐ National agencies – ICDS, ICMR, ICAR and NIPCCD
- ☐ International agencies – WHO, FAO, UNICEF

Unit V

- ☐ Primary health care of the community – National health care delivery system, Indicators of Health

Core Course 14:**Practical****05 Credits**

Full Marks: 70

Time : 3 Hours

*The pattern of question papers will be as under**Group A- Compulsory – ten questions (two questions from each unit) of two marks each.**2 x 10 = 20 marks**Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.**5 x 4 = 20 marks**Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.**10 x 3 = 20 marks***Core Course: 10****Food Processing**

- ☐ Physical principles in freezing and dehydration processing
- ☐ Chemical principle in food processing – Chemical changes in food that affect texture, sanitation and waste disposal
- ☐ Packaging – Latest trends in packaging, function and management.
- ☐ Food labeling – Definition, principles, nutritional labeling, food standards and laws.
- ☐ Quality control – risk analysis, Hazard Analysis Critical Control Point System (HACCP)

Core Course: 11**Food Science and Experimental Food**

- ☐ Crystallization of sugar, stages of sugar cookery, preparation of peanut brittles, gulab jamun
- ☐ Study of changes occurring during cooking of meat, fish and egg Preparation of meat roast and minced meat fried and steamed fish, poached egg, omelets, moonaise
- ☐ Effect of soaking and germination- preparation of dishes from soaked germinated grams sattu- litti and kheer
- ☐ Use of different methods of cooking vegetables and their effect on nutrients, steps to minimize losses
- ☐ Gelatin and frozen desserts – factors affecting ice crystal formation

Core Course:12**Institutional Food Management**

- ☐ Running and managing a food service institution cafeteria
- ☐ Quantity cookery – standardized portions
- ☐ Visit to various food service institutions.

Core Course:13**Community Nutrition**

- ☐ Development of low cost recipes for infants, preschoolers, elementary school children, adolescents, Pregnant and lactating mothers.
- ☐ Planning of cyclic menus for *balwadi*/nursery school, mid-day snack/school lunch.
- ☐ Survey: Dietary surveys and assessment of nutritional status
- ☐ Visits to the ongoing public health nutrition programmes

Semester- IV

Elective Course1: Practical Approach to Writing Research Activities

05 Credits

Time: 3 Hours

Full Marks: 70

The pattern of question papers will be as under

Group A- Compulsory – ten questions (two questions from each unit) of two marks each.

$2 \times 10 = 20$ marks

Group B- Five questions (one from each unit) – each question of 5 marks, four to be answered.

$5 \times 4 = 20$ marks

Group C- Five questions (one from each unit) – each question of 10 marks, three to be answered.

$10 \times 3 = 20$ marks

Unit I

Writing for Grants – and Aid

- ☐ Getting familiar with the proposal format of different funding agencies: National and International level
- ☐ Project proposal presentation
- ☐ Proposal for Seminar/ Conference / Workshop

Unit II

Different forms of research writing

- ☐ Dissertation
- ☐ Project report
- ☐ Articles in Journals
- ☐ Research notes and reports
- ☐ Review of article
- ☐ Review of books

Unit III

Power Point Presentation of any one from Unit I & II

☐

Elective Course2: Internship / Dissertation / Project / Seminar 05 Credits

Internship Project:

The students shall be required to undergo and internship project for a total duration of 4-6 weeks in their chosen area of interest/ specialization / optional group that will facilitate their pursuing a professional career in the same field. They will be assigned the project work to be completed during the break after second semester. The organization/ institute (public/private) providing internship facility to students should stand as good professional career support. The students will be required to submit and present a report of the internship project after completion of the same. It is also envisaged that the participating organization / institution will give the performance appraisal of the students work at the end of internship period.

Dissertation:

Every student shall be allotted a research supervisor. The research supervisor shall be from the Department of Home Science and if the topic so requires the co-guide could be from other semester. The topic of research will be finalized by the research supervisor in consultation with the Head of the Department. It is the responsibility of the research supervisor that the student is making the required progress in work. The student will have to give a presentation on the research proposal and a seminar on the findings of research before submitting the dissertation. The suggestions and constructive criticism of the faculty should be made use of

Handwritten signatures and dates at the bottom of the page:

- 13.06.2018
- 13.06.2018
- 17.05.2018
- 7/5/18

- 11.5.18
- 7.5.18

by student for further improving the draft of the dissertation. The study must be completed and submitted in the form of a dissertation by the end of the final year. Normally, the M.A. Dissertation is expected to cover 60-80 pages of A4 size, excluding bibliography and appendices. Three copies of the same should be submitted to the Department of Home Science. Each student submitting a dissertation must also submit three copies of the abstract of her dissertation not exceeding 300 words, excluding the title. Marks will be awarded, for research seminars practical exercises and viva-voce examination. Student shall give a formal presentation of the report before the jury comprising of minimum three internal faculty members including internal supervisor who will be appointed by the Director of the college. The external marks will be awarded the external examiner to be appointed by the examination division of the university. The format of the report is given below:

1. Research Objective
2. Literature Review
3. Research Methodology
4. Results and Analysis
5. Conclusion
6. References
7. Appendices - to include questionnaire, if any

Dissertation shall incorporate the certificate given by the internal supervisor regarding its satisfactory completion.

Seminar

A seminar will be presented based on the Dissertation
